PROFESSIONAL SUMMARY

Software Engineering undergraduate (2028) with a strong foundation in software development principles and problem solving. Skilled in applying technical knowledge to build practical solutions and contribute to real-world projects. Seeking opportunities to gain hands-on experience and further develop expertise in designing efficient and scalable software systems.

TECHNICAL SKILLS

Languages: Python, C, JavaScript (Intermediate), HTML, CSS, Java (Intermediate)

Databases: MySQL, SQLite, SQLAlchemy ORM

Frameworks: FastApi, Flask Core Concepts: Data Structures & Algorithms, OOP, REST APIs, Authentication (JWT – basic)

Platforms & Tools: Git, GitHub, VS Code, PyCharm, Google Colab, IntelliJ IDEA, Linux (basic)

PROJECTS

International Space Station (ISS) Live Tracker

Tech: Python, Flask, HTML, JavaScript

- Built a full-stack web application that fetches live ISS telemetry and renders the satellite's current position and orbital path on an interactive map.
- Deployed with Flask; structured the app with clean MVC separation for maintainability.
- <https://trackeriss.vercel.app/>

Product Management Dashboard

Tech: Python, FastAPI, MySQL, JavaScript, HTML, CSS

- Developed a full-stack product management web app enabling teams to create, update, prioritize, and delete products and tasks through an intuitive dashboard UI.
- Built a RESTful Python/FastApi backend with MySQL for persistent data storage and a dynamic JavaScript frontend for real time UI updates without page reloads.
- <https://productmanagementcom.vercel.app/>

Authentication System with JWT

Tech: Python, FastAPI, MySQL, JavaScript, HTML, CSS JavaScript Python CSS

- Implemented a secure user authentication system featuring registration, login, and protected routes using JSON Web Tokens (JWT) for stateless session management.
- Enforced token expiry, refresh-token rotation, and route-level authorization middleware to guard API endpoints against unauthorized access.

GitHub: <https://github.com/vphantomk666/AUTHFLASH>

Portfolio Website

Tech: HTML, CSS, JavaScript

- Designed and developed a responsive personal portfolio showcasing projects, technical skills, and achievements.
- Implemented interactive UI components and optimized performance for fast page loading and mobile responsiveness.
- Deployed the website on Vercel with source code managed using Git and GitHub
- <https://portfoliophantom14.vercel.app/>

EDUCATION

Bachelor of Engineering-Computer Science & Engineering | CGPA: 7.0/10.0 2024-2028

Expected Graduation: 2028 2024–2028 Relevant Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Software Engineering, OOP with Java/Python

Govt. Boys Sr. Sec. School, India, Class XII, Aggregate: 59.6% 2023-2024

A.P. Sr. Sec. School, India, Class X, Aggregate: 65.8% 2021-2022

CERTIFICATIONS & ACHIEVEMENTS

- Solved 100+ coding problems on HackerRank (Rank: 30,807 · 1,775 points)
- Solved 300+ coding problems on LeetCode
- Python Certification – Greeks for Greeks, HackerRank
- SQL Certification – HackerRank ► Samsung Galaxy AI Treasure Hunt – Participant & Completer
